A strong brand name with over 29+ years

Empowering investors with personalized experience

# Meet Our Founder

Mr. Ashok Jain is the managing director and chairman at Arihant Capital Markets Ltd. After successfully running his practice as a CA, Mr. Jain founded Arihant Capital Markets Ltd in 1992 and ventured into the broking business in 1994. His idea was simple – to help every Indian create wealth. Under his leadership, the brand has grown from a one-branch broking company into one of the leading financial service companies in India, with over 800 investment centers all over the country. Over the next few years, he diversified his business into various areas of financial services such as – institutional broking, depository, merchant banking, distribution, and wealth management.

Mr. Jain values integrity and personal relationships and believes the company can only grow when the client is in the win.

“The power of investment has always been a strong part of my belief system. I want to make every Indian financially independent by offering them investment products, best-in-class services, and guidance that always puts the client first”

– CA . Ashok Jain, Founder
